Newsletter October 2026

Dear Members,

Autumn is now upon us with more seasonal temperatures. The next meeting is on Sunday 18th October at Pool Village Hall, when the speaker will be Antonia Black. She will be talking about how she grows orchids indoors.

Last month's talk, given by Tasmin, was extremely informative about growing in terrariums, whether they be fish tank size or in miniature bottles. It went to show a lot could be achieved with a little ingenuity. It also hadn't occurred to me to use parasitic predators indoors for the likes of red spider mite.

There was a committee meeting held after the last meeting where it was decided what the meeting dates are for 2027. These will appear on the Society website in due course.

My thanks go out to this month's contributors. PLEASE keep sending me your photos, and/or articles.

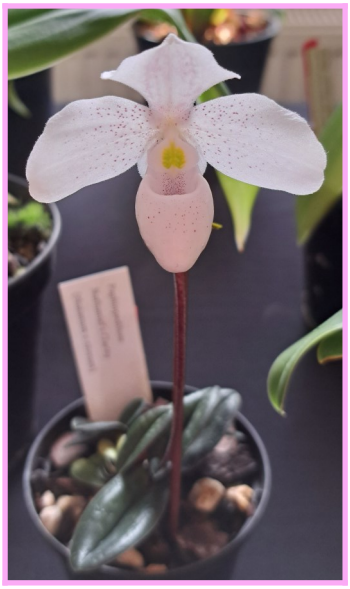

Best wishes,

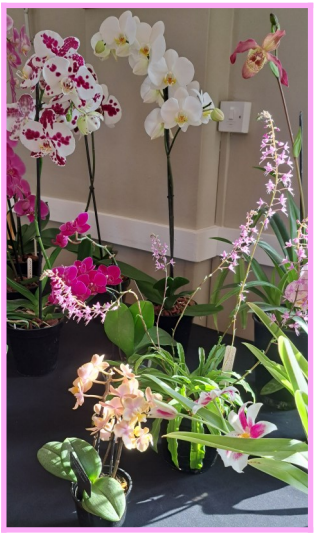

Liz, Editor

*****

TABLE DISPLAY

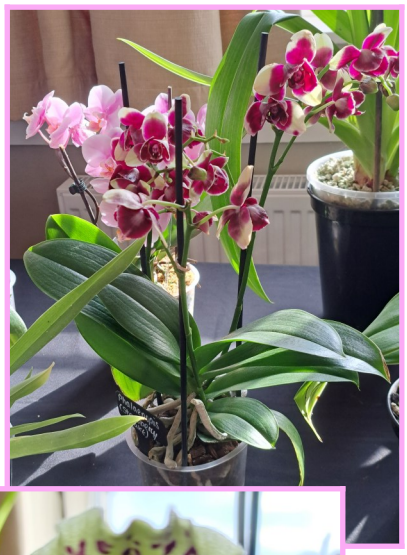

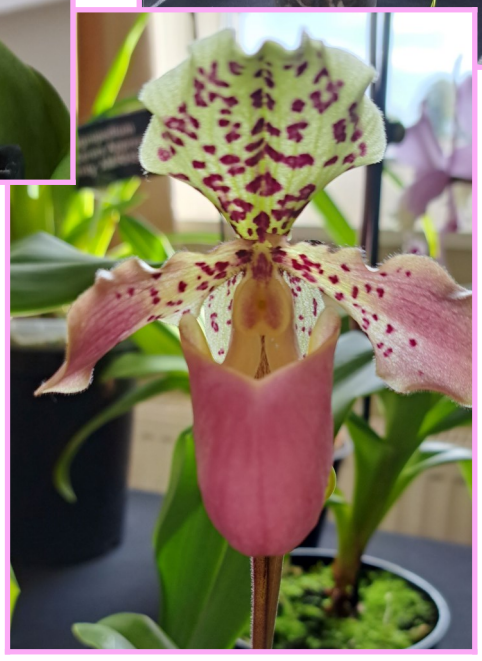

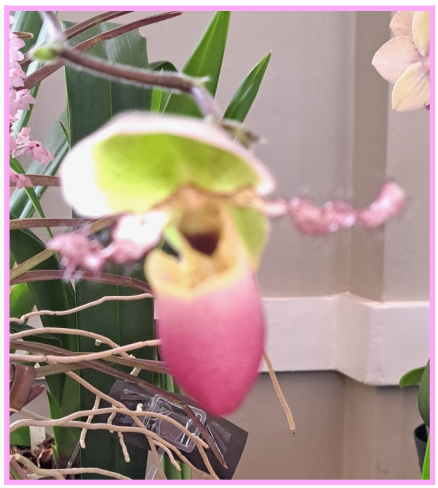

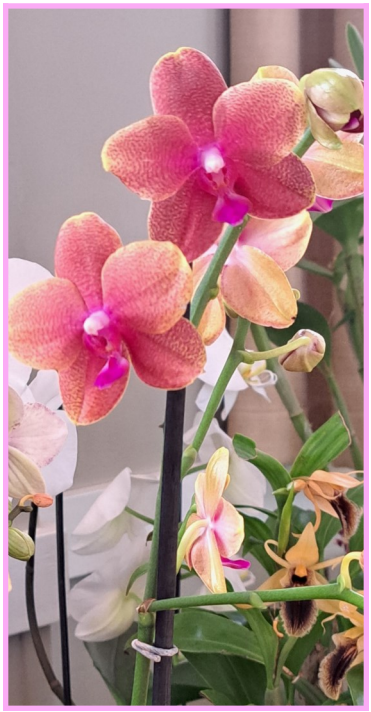

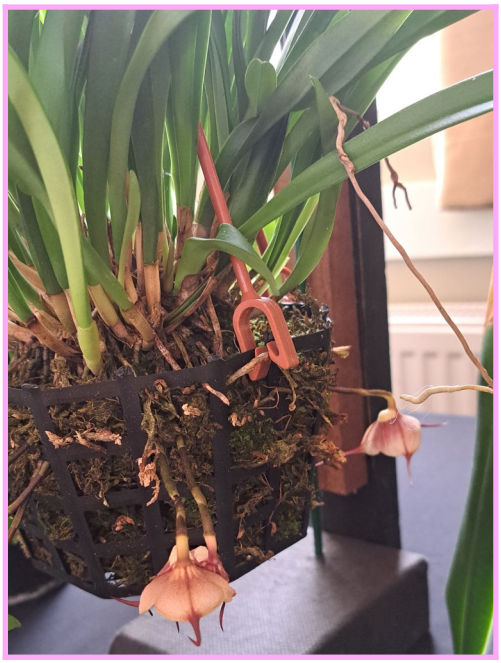

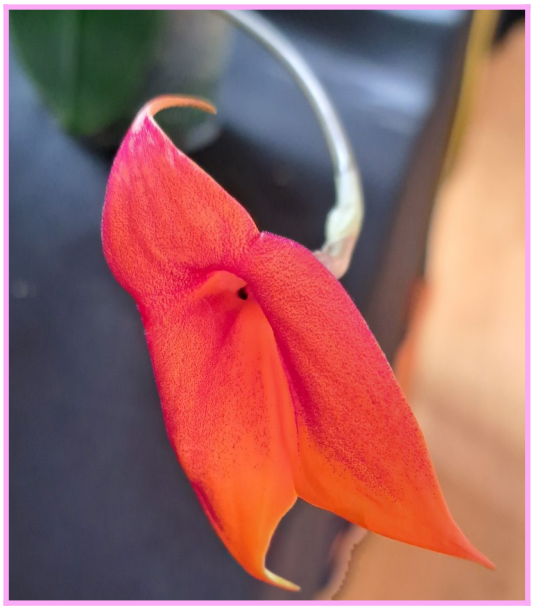

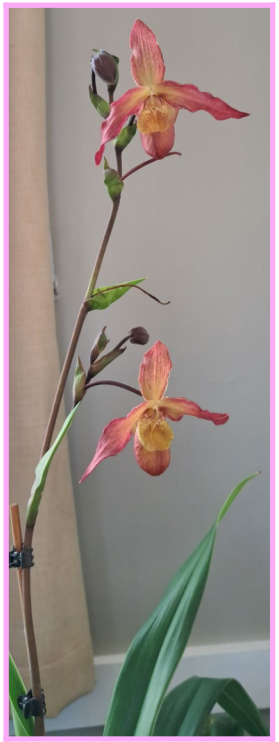

Miltonia
spectabilis

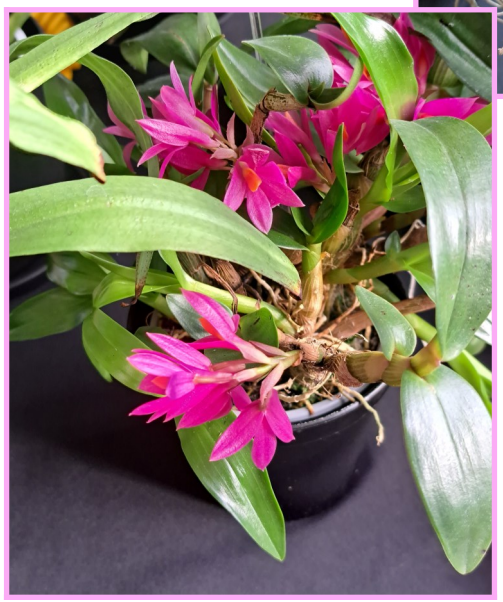

Dendrobium
Hibiki
2026

Four of Trevor's plants

Phragmipedium 'Hougette'

Miltassia 'Mary Hollingshead'
